

AMIT CHOUHAN

Network & Cloud Security Architect

PROFESSIONAL SUMMARY

Security professional prepared with deep knowledge of security protocols and architectural frameworks. Extensive experience in developing and implementing security strategies that align with business goals. Known for collaborative approach and adaptability, ensuring seamless integration and compliance with evolving security needs.

SKILLS

- Amazon Web Services (AWS) – EC2, VPC, IAM, S3, Security Groups, NAT, Transit Gateway, AWS Firewall.

VPN – Site-to-Site, Client-to-Site (IPSec, SSL).

Firewalls – Cisco ASA, Palo Alto, Check Point, Forcepoint.

Proxy Solutions – McAfee Web Gateway, Websense (Forcepoint), Zscaler.
- Microsoft Azure – Azure Firewall, NSG, Azure Monitor, Azure VPN Gateway Network & Infrastructure.

Load Balancers – F5, AWS ELB, Azure Load Balancer.

Web Application Firewall (WAF) – AWS WAF, Azure WAF, F5 WAF.

AI Security.

CERTIFICATIONS

- Cisco Certified Internetwork Engineer - Security #53175
- Cisco Certified Network Associate
- AWS Certified Security Specialist
- Certified Ethical Hacker
- AWS Certified AI Practitioner

WORK HISTORY

- ASSISTANT CONSULTANT 05/2022 to Current

Tata Consultancy Services, Pune

 - Led a team as a Cloud Security Architect, delivering efficient solutions to clients and ensuring robust cloud security.
 - Conducted weekly audits using McAfee Mvision tool to identify and address non-compliant resources, enhancing overall security posture.
 - Reviewed and approved JIRA requests related to security groups, IAM policies, FQDN & IP whitelisting, ensuring compliance and security standards.
 - Prepared and presented weekly status reports to clients, maintaining transparency and effective communication.
 - Assisted Customer in using the AWS Web Application Firewall and created rules

according to application requirements.

- Deployed AWS GuardDuty to monitor and protect against malicious activity and unauthorized behavior, safeguarding AWS accounts and workloads.
- Utilized Qualys Vulnerability Management, Detection, and Response (VMDR) platform for comprehensive vulnerability scanning, identification, and tracking, enhancing security visibility across assets and networks.
- Conducted in-depth vulnerability assessments and risk analyses across diverse IT environments, identifying and remediating security vulnerabilities to ensure compliance with industry standards and best practices.
- Performed continuous monitoring, asset discovery, and threat prioritization, leveraging VMDR to automate detection and streamline the remediation process for high-risk vulnerabilities.
- Assisted customers in architecting solutions on AWS, leveraging cloud best practices, and enabling Cloud Migration Governance standards.

SENIOR ENGINEER - CLOUD & INFRA SERVICES 05/2019 to 05/2022

LnT Infotech, Mumbai

- Leading a team to provide efficient solutions to clients.
- Add/Edit/Delete Custom IAM User, Role, Policy, EC2 Instances, Security Groups, Route53 DNS Record.
- Worked on VPC Transit(Transit Gateway) project and created route-based tunnels between sites and AWS VPC.
- Worked on Migration of Forcepoint Cloud Proxy.
- Worked on Migration of Aerohive Cloud Wi-Fi.
- Troubleshooting on VPN issues.
- Mentored junior engineers, providing guidance in best practices and fostering professional growth opportunities.

ASSOCIATE CONSULTANT 08/2016 to 04/2019

Cap Gemini, Mumbai

- Handling the complete Global Network of CMC spanning America, Europe, APAC, and Australia.
- Working on L2/L3 Incidents/Tickets to provide resolution in defined SLA.
- Creating and implementing Network Changes as required by the Business.
- Monitor complete Network Infrastructure using SolarWinds.
- Conduct Weekly meetings with Customers for various Network/Security/Voice discussions.
- Mentor junior resources and conduct Audits for Resolved Tickets/Incidents.
- Work on Network Security covering devices like CISCO ASA, CISCO MERAKI, and CHECKPOINT.
- Optimize Internet traffic using devices like MacAfee Proxy, and ZScaler.
- Work on Wireless DATA using devices like CISCO WLC, AP, and MERAKI AP.
- Manage User Authentication using CISCO ISE & ACS SERVER.
- Work on F5 Load balancers for Load Balancing Application Server Requirements.
- Using SolarWinds to automatically push configuration scripts across all devices throughout the globe.

NETWORK ENGINEER 02/2015 to 08/2016

Indeo Technologies

- Implementing and Troubleshooting the network security related issues.
- Perform level 3-4 security implementations, vulnerability assessments and intrusion detection.
- Build Checkpoint firewall, and configured GUI to open/close TCP/IP ports.
- Identified and removed security policies that are no longer needed to reduce

- Checkpoint firewall policy lookup.
- Configured necessary routing and NAT on the firewall appliance to communicate with the internet.
- Backup, restore and upgrade of Checkpoint firewall appliance.
- Monitored Checkpoint VPN tunnel activities with Smart View Monitor and troubleshoot VPN issues with CLI.
- Monitored network capacity and performance to diagnose and resolve complex network problems.
- Enhanced security by implementing firewalls, VPNs, and access control systems.

NOC ENGINEER 05/2014 to 02/2015

IT Source Technologies

- Tools: BMC Remedy, SIEM, NMS, CACTI, CNR.
- Troubleshooting on CISCO routers Major pop (7609), Micro-pop(7606) & Firewall & SSG, Troubleshooting of Routing & Switching related issues in TATA network.
- Troubleshooting of LAN, VLAN, DHCP snooping, port security & STP on switches (2950, 3750, and 6500).
- Troubleshooting on Metro-e & Legacy SSG (provides services & plan for different type of Broadband & DSL customers).
- Configuration & Troubleshooting on Firewall (Route, NAT & Access-list).
- Providing L2 support for Escalated case of No Browsing, Slow browsing, Site not opening Mailing issue.
- Monitoring of SIEM tools which collect logs from various devices and applications for investigation and analysis.
- Improved network performance by monitoring, troubleshooting, and resolving complex technical issues.
- Supported global network users with connectivity, VPN, and access issues.
